EDUCATION

- June 2023 - Ecole polytechnique, Laboratoire de Chimie Moléculaire, Palaiseau
- Ph.D student**
- Thesis Title: Organometallic chemistry of Uranium (Prof. Grégory Nocton)
- 2020 – 2022 University of Trieste, Italy
- Master degree in Chemistry** (*curriculum*: nanostructured materials and complex systems)
- Thesis title: The control of polar monomer incorporation in palladium-catalyzed ethylene/acrylic ester copolymerization. (Prof. Barbara Milani)
- 2017 - 2020 University of Trieste, Italy
- Bachelor degree in Chemistry**
- Thesis title: Preliminary studies for the development of a peptide biosensor for oleuropein based on the addition of the cysteine thiol group. (Prof. Federico Berti)

INTERNSHIPS

- March 2022 – July 2022 Universitat Rovira i Virgili, Tarragona, Spain
- Visiting student**, Erasmus+ Traineeship
- Multi-step synthesis of bidentate ligands under inert atmosphere. (Prof. Cyril Godard)
- August 2019 ARPA FVG, Udine, Italy
- Validation of an analytical method for the determination of ochratoxin in cocoa and licorice using HPLC-MS.
-
